Rule 4.1 No academic degree-granting institution shall operate in the State without first receiving approval from the Commission on College Accreditation (MCCA or commission). Registration with the Secretary of State shall not constitute State authority, accreditation, or approval to grant degrees or offer courses and programs leading to academic degrees. To meet the requirements for institutional authorization or the renewal of existing institutional authorization, the institution shall be in compliance or progressing toward compliance with State standards, regulations, provisions, procedures and policies including but not limited to the standards set out below and/or the provisions in Part 201 Chapter 3.

Rule 4.2 Institutions shall meet the standards of quality for institutional authorization as it relates to institutional mission, governance, administration, distinction of roles, resources and stability, financial records, evaluation and assessment, admissions, faculty qualification and size, curriculum, general education, credit for work completed outside a collegiate setting, library, facilities, academic records, accurate and fair disclosures, academic advising and counseling, and student rights and responsibilities.

The chief academic officer shall hold an appropriate graduate academic degree, and shall demonstrate sound aptitude for and experience with curriculum development and assessment; accreditation standards and processes as well as all relevant state regulations; leadership and development of faculty, including the promotion of scholarship, research, and service; and the promotion of student success. The institutional officers shall demonstrate a record of effective leadership in administering the institution.

**Rule 4.2.4** Distinction of Roles. There shall be sufficient distinction among the roles and personnel of the governing board of the institution, the administration, and faculty to ensure their appropriate separation and independence.

The institution must have a sound financial base, demonstrated financial stability, and adequate physical resources to support the mission of the institution and the scope of its programs and services. The institution must, through ownership or formal arrangements or agreements, provide and support student and faculty access and user privileges to adequate library collections as well as to other learning/information resources consistent with the degrees offered; those collections and resources must be sufficient to support all its educational, research, and public service programs, as applicable.
